

# Developing your renewable energy business

**Offshore Renewable Energy opportunities, Canal Court Hotel, Newry  
Thursday 27 January 2011 - 12.00 noon – 13.30**

Invest Northern Ireland has been at the forefront of informing Northern Ireland businesses about the commercial opportunities available in renewable energy markets. Earlier this year the Crown Estate awarded Round 3 Wind farm contracts and these contracts have wide ranging supply chain opportunities including £50 billion worth of business opportunities in the Irish Sea.

To help prepare for these contracts we have worked with renewable energy consultancy, Garrad Hassan to get a comprehensive overview of the opportunities and capabilities available around our ports.

At this informative session, you will be invited to hear about these potential opportunities in renewable energy markets with a particular focus on your local port.

## AGENDA

**12.00** - Registration/lunch

**12.30** - Opening address - Mayor

**12.45** - Opportunities in Offshore Renewable Energy Supply Chains - Sam Knox, Invest NI

**13.15** - Case Study - Brian Devlin, CEI Collins Engineers

**13.30** - Networking
