

## Guidance for Civic Amenity Site Users

Site users are advised;

- where recycling facilities have been made available for certain materials they must be used.
- recyclable materials cannot be disposed of in the general waste skips.
- ask a site attendant if you are unsure if a recycling facility is available for the materials you wish to dispose of.
- segregate materials before visiting the site.
- users coming with unsegregated materials will be asked to separate out any recyclables.

## Information for Business Users

Local businesses can use the site to dispose of waste and recyclables however there is an associated charge.

For more information contact Technical Services on Tel: 028 9250 9250

### General Waste Disposal

Skips are provided on site for the disposal of general waste. Any material placed in these skips is sent to landfill. As Lisburn City Council has to meet increasingly challenging landfill diversion figures or face huge fines, site users will be asked to remove any recyclable material they have before disposing of waste in the general waste skips. These recyclable materials should then be deposited in one of the special areas provided.

## What can I recycle on site?

A wide range of materials can be recycled at the civic amenity sites as follows:
